re: UPE09-0027 / 15001 Meyers Grade Road, Jenner / Lester Schwartz Trust

Dear Ms. Cynthia Demidovich;

Records at this office were reviewed to determine if this project could adversely affect cultural resources. **Please note that use of the term cultural resources includes both archaeological sites and historical buildings and/or structures. The review for possible historic-era building/structures, however, was limited to references currently in our office and should not be considered comprehensive.**

Previous Studies:

XX This office has no record of any previous cultural resource studies for the proposed project area.

Archaeological and Native American Resources Recommendations:

XX The proposed project area has the possibility of containing unrecorded archaeological site(s). A study is recommended prior to commencement of project activities.

XX We recommend you contact the local Native American tribe(s) regarding traditional, cultural, and religious heritage values. For a complete listing of tribes in the vicinity of the project, please contact the Native American Heritage Commission at 916/653-4082.

Built Environment Recommendations:

XX Since the Office of Historic Preservation has determined that any building or structure 45 years or older may be of historical value, if the project area contains such properties, it is recommended that prior to commencement of project activities, a qualified professional familiar with the architecture and history of Sonoma County conduct a formal CEQA evaluation.

For your reference, a list of qualified professionals in California that meet the Secretary of the Interior's Standards can be found at <http://www.chrisinfo.org>. If archaeological resources are encountered during the project, work in the immediate vicinity of the finds should be halted until a qualified archaeologist has evaluated the situation. If you have any questions please give us a call (707) 664-0880.

Sincerely,

Emily Darko, for

Re: Native American cultural heritage interests on
UPE09-0027/15001 Meyers Grade Rd., Jenner/Lester Schwartz Trust
Parcel #109-160-20

Dear Ms. Demidovich,

In compliance with the State Native American Heritage Commission and at the recommendation of the California Historical Resources Information System at Sonoma State University, I recently met with Kashia Pomo Tribal representatives regarding the possibility of the presence of cultural heritage sites in the proposed project area.

On September 30, 2009 I met with:

Lester Schwartz, property owner,
Reno Franklin, Kashia Tribal Historical Preservation Officer,
Walter Antone, Kashia Tribal Elder, and
Derek Antone, Kashia Tribal Intern.

The Tribal Representatives reexamined the proposed project area and agreed with my original finding namely, **no places of traditional, cultural, or religious values will be impacted by this proposal.**

If I can be of service, please call or email me.

Yours truly,

René Péron
